

PPP Loan Assistance File Available

We have developed a spreadsheet to assist you in understanding the financial requirements and results of utilizing the SBA/IRS PPP loan program.

Use of this spreadsheet in no way guarantees forgiveness of your PPP loan and should not be construed as tax, legal or banking advice. Please consult with your CPA, attorney or banker for further information and clarification of rules surrounding PPP loans and the use of PPP loan proceeds.

This information was created by James E. Holland, CPA, based on rules in effect at the time of development. Please note that final rules by the SBA and/or US Treasury may change.
